**3026 Point Clear Drive
Tega Cay, SC 29708**

**The Honorable Commissioners
Public Service Commission, State of South Carolina**

Dear Commissioners:

I am writing to you because you so often smiled and complimented our efforts during our testimony against Tega Cay Water Service;

I don't think you were smiling at us because you knew the hearings were just a sham, and that TCWS was going to get what they wanted.

I am sure you sit on the PSC because you care about South Carolina, its environment and its people.

The bad guys won BIG and I think you care. We are not attorneys and we realize that the possibilities of continuing this battle on behalf of the citizens of Tega Cay are very complicated. We have considered class action suits, starting our own company, getting federal help, asking for guidance from everyone from the EPA to AARP! There seems to be an appeal process with PSC. Can we do that? Who do we turn to for guidance?

We value your advice, and understand that perhaps you have been stuck between a rock and a hard place. Thank you in advance, as a member of the Tega Cay Water Advisory, I look forward to your response.

Sincerely,

Joyce Ann Clark
